# APPS TO SHARE?

# CHATBOOKS

<https://youtu.be/PTTs7ewuDY8>

# CLOUD STORAGE

---

► Apple iCloud

► Google Drive

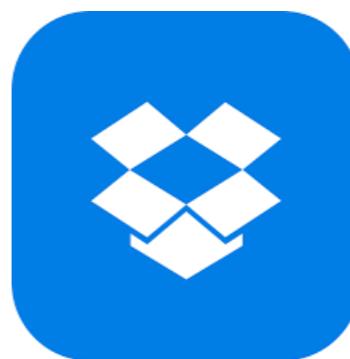

► Microsoft OneDrive

► Amazon Drive

► Drop Box

► Box

# FILES (new in iOS 11)

---

- ▶ Manage all of your cloud storage in one place.
- ▶ Add cloud services to open up or view files
- ▶ Keeps a lot of memory off of your device, but does cache some of the memory, which takes up some.

# TEXT DOCUMENTS

---

- Apple Pages
- Google Docs
- Microsoft Word
- These all essentially do the same thing, which is write a document. Usually the files written in one can be opened in the others (formatting may look different)

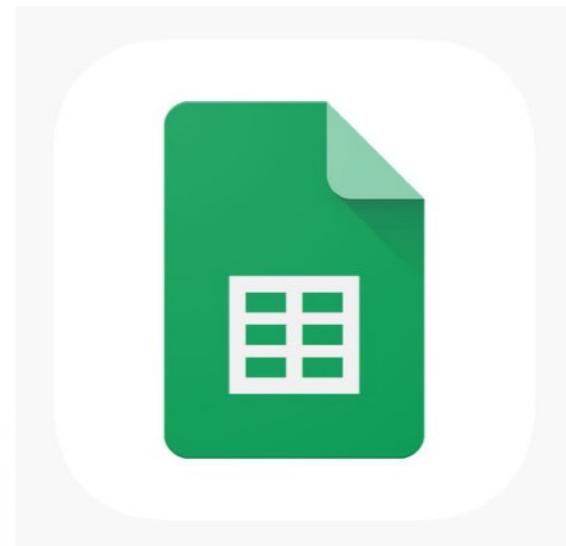

# SPREADSHEET DOCUMENTS

---

- Apple Numbers

- Google Sheets

- Microsoft Excel

- These all essentially do the same thing, which is write a document. Usually the files written in one can be opened in the others (formatting may look different)

# PRESENTATION DOCUMENTS

---

- Apple Keynote
- Google Slides
- Microsoft PowerPoint
- These all essentially do the same thing, which is write a document. Usually the files written in one can be opened in the others (formatting may look different)

# WEB BROWSERS

---

- Apple Safari
- Google Chrome
- Microsoft Edge
- Mozilla Firefox

# EMAIL

---

- Apple Mail
- Google Gmail
- Microsoft Outlook
- Yahoo Mail
- Many Many Others
